

New Generation English Test

Academic Entrance Diagnostic

Level	B2 - Upper-Intermediate Exam Route
Skills assessed	Reading, Listening, Writing, Speaking, Grammatical Range and Accuracy
Format	Academic entrance diagnostic test

Reading

Digital attention and the illusion of productivity

Schools often introduce digital platforms with the promise of efficiency. Assignments can be submitted instantly, feedback can be stored, and parents can see progress without waiting for a meeting. Yet efficiency is not the same as learning. A student may move quickly through online tasks while paying only partial attention. Notifications, open tabs and the habit of checking messages can turn a thirty-minute assignment into a sequence of interruptions.

The problem is not technology itself but the absence of attention training. Students are often told to be responsible online, but they are rarely taught what responsibility looks like in practical terms. A well-designed digital task should include a goal, a time limit, a pause for checking understanding and a short reflection. Without these elements, a platform may produce the appearance of independent work while quietly weakening concentration. The most successful learners are not those who use the most tools, but those who know when to close them.

01 What distinction does the text make?

- A. Online tasks are always useless.
 - B. Parents dislike digital platforms.
 - C. Efficiency is not the same as learning.
-

02 What can interrupt online work?

- A. Books and pencils.
 - B. Teacher feedback.
 - C. Notifications and open tabs.
-

03	What is the central problem? A. Too much handwriting. B. Technology itself. C. Lack of attention training. _____
04	What should a digital task include? A. Only speed and points. B. A long list of apps. C. Goal, time limit, checking and reflection. _____
05	What does appearance of independent work mean? A. It may look productive without deep focus. B. It is impossible to observe. C. It is always excellent. _____
06	Who are the most successful learners? A. Those with the newest devices. B. Those who know when to close tools. C. Those who never use technology. _____
07	Which tone best describes the text? A. Balanced and critical. B. Purely promotional. C. Angry and dismissive. _____

08

What can be inferred about digital platforms?

- A. They should be banned.
 - B. They need method, not blind use.
 - C. They replace teachers completely.
-

Listening

Interview on online learning

Audio track: B2-listening.mp3 on the website. If the recording is not uploaded yet, use the backup browser voice. The transcript is not printed in the student PDF.

01 What does the teacher partly agree with?

- A. Platforms always damage learning.
 - B. Platforms can support independence.
 - C. Schools should remove all technology.
-

02 What can platforms disguise?

- A. Parent meetings.
 - B. Excellent handwriting.
 - C. Passive behaviour.
-

03 What is not the same as thinking?

- A. Asking questions.
 - B. Clicking through tasks.
 - C. Reading deeply.
-

04 What should be made visible?

- A. The school budget.
 - B. The teacher's private notes.
 - C. The learning strategy.
-

05 What does the tool create?

- A. Learning by itself.
 - B. Access.
 - C. Motivation automatically.
-

06	What creates learning? A. Method. B. Speed. C. Decoration. _____
07	What does technology expose? A. Personality. B. Planning. C. Marks only. _____
08	What is the speaker's overall view? A. Conditional and analytical. B. Completely negative. C. Naively enthusiastic. _____

Writing

IELTS Task 2 / TOEFL independent hybrid. Write 180-220 words: Digital tools improve education only when students are explicitly taught how to manage attention. To what extent do you agree?

Teacher rubric: task response 0-5; organisation 0-5; grammar control 0-5; vocabulary range 0-5.

Speaking

Record 2-3 minutes. Defend a position on online learning. Include one concession, one example from school practice, and one condition under which your argument might be wrong.

Record your answer on the website or prepare an audio file for the teacher.

Preparation notes

Grammatical Range and Accuracy

01 Had students been trained properly, they ____ fewer distractions.

A. would have faced

B. would face

C. will face

02 Not only ____ tasks faster, but they also submitted better reflections.

A. they did complete

B. did they complete

C. they completed

03 The platform ____ to support independent work.

A. is designing itself

B. is designed

C. designs

04 Students need to know when ____ tools.

A. closing

B. to close

C. close

05 The issue is not whether tools are used, ____ how they are used.

A. whereas

B. but

C. despite

06	A lesson that lacks structure is likely ____ online. A. to fail B. failing C. fail _____
07	The more interruptions students face, ____ their attention becomes. A. the weaker B. weaker C. the weakest _____
08	It is essential that each learner ____ a clear goal. A. has B. will have C. have _____
09	The teacher explained how the task ____ completed. A. should B. should be C. has being _____
10	If the method were stronger, the result ____ different. A. would have been B. would be C. will be _____

11	The claim, ____ attractive, is incomplete. A. because B. despite C. although _____
12	Students are rarely taught ____ responsibility looks like. A. which B. what C. that _____
13	The task was completed, but the reflection ____ superficial. A. remained B. has remained to C. remaining _____
14	This is the habit ____ teachers should train explicitly. A. where B. which C. who _____
15	No sooner had the lesson started ____ messages appeared. A. than B. then C. that _____

16

The platform records habits, ____ it does not necessarily improve them.

- A. despite
- B. whereby
- C. yet

17

Students should be prevented ____ multitasking during the first attempt.

- A. from
- B. to
- C. of

18

The feedback was detailed enough ____ useful.

- A. to be
- B. be
- C. being
