

# C1 Listening

## Academic diagnostic - Listening

|                 |                                                                       |
|-----------------|-----------------------------------------------------------------------|
| Level           | C1 - Advanced Academic                                                |
| Skills assessed | Reading, Listening, Writing, Speaking, Grammatical Range and Accuracy |
| Format          | Academic entrance diagnostic test                                     |

### Listening

#### Academic discussion of diagnostic labels

Audio track: C1-listening.mp3 on the website. If the recording is not uploaded yet, use the backup browser voice. The transcript is not printed in the student PDF.

01 Why can the word level be dangerous?

- A. It is never convenient.
  - B. It has no practical use.
  - C. It hides important differences.
- 

02 What does the lecturer say about labels?

- A. They may be broadly accurate but incomplete.
  - B. They replace diagnosis.
  - C. They are always false.
- 

03 What example does the student give?

- A. Perfect writing and no reading.
  - B. No vocabulary at all.
  - C. Fluent speaking but inaccurate writing.
-

|    |                                                                                                                                                                                                                      |
|----|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 04 | <p>What is the diagnostic question?</p> <p>A. How fast the test can end.</p> <p>B. Which label sounds better.</p> <p>C. What support the pattern suggests.</p> <p>_____</p>                                          |
| 05 | <p>What should a responsible teacher do?</p> <p>A. Never use labels.</p> <p>B. Keep the label provisional.</p> <p>C. Give only a score.</p> <p>_____</p>                                                             |
| 06 | <p>What does provisional mean here?</p> <p>A. Open to revision.</p> <p>B. Completely random.</p> <p>C. Officially certified.</p> <p>_____</p>                                                                        |
| 07 | <p>What is the relationship between label and conversation?</p> <p>A. The conversation should avoid evidence.</p> <p>B. The label begins it; it should not end it.</p> <p>C. The label replaces it.</p> <p>_____</p> |
| 08 | <p>What is the tone?</p> <p>A. Nuanced and analytical.</p> <p>B. Purely narrative.</p> <p>C. Sarcastic and hostile.</p> <p>_____</p>                                                                                 |
