Anna's first month at an English club

Anna is twelve, but she does not feel like a very small learner. She lives in a quiet town with her parents and her older brother. Twice a week she goes to an English club after school. The classroom is small, and there are only six students, so everyone has to speak. Anna likes this because she wants to understand songs and short videos without translating every word.

At the club, the teacher gives the students small projects. On Monday they describe their rooms, families and favourite places. On Wednesday they read short messages and answer questions. Anna is not afraid of speaking, but writing is slower for her. She often forgets articles and the letter s in he likes or she plays. At home she keeps a vocabulary notebook. Every evening she writes five new words and one example sentence.

Questions

1. How old is Anna?
